

protego[®] SMART

Protego SMART has the goal of becoming a leader among aluminum rapid opening covers from a technical, structural and aesthetic point of view. The technology that composes it is able to cover very large surfaces. Thanks to its ability to open/close automatically, in a maximum of 60 seconds with a single operator, you can enjoy its safety and its countless comforts quickly and without additional costs.

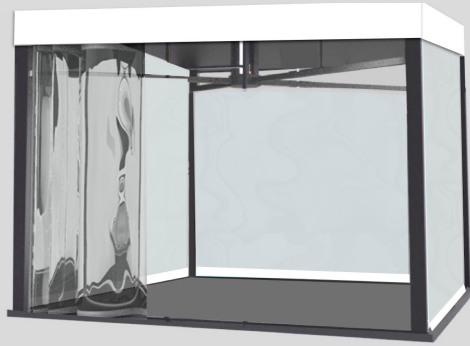

No longer fixed or folding gazebos but an elegant, modular, technically solid cover and with all the systems and options pre-assembled in the factory. An adequate covering to satisfy all types of customers, even the most demanding ones, for events, shows, swimming pools, gardens, terraces, etc. Perfect style and unique design, suitable to be inserted in architectural solutions of great value, enriching them.

FEATURES:

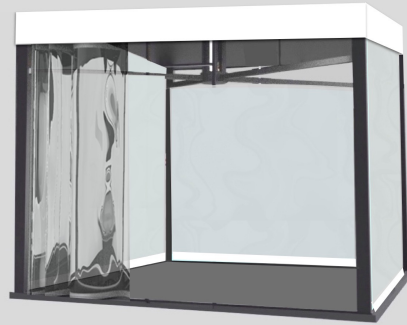

- *Natural anodized aluminum structure*
- *Opening/closing with manual ejection wheels*
- *Protego SMART weighs 70-115 kg per roof - from 9 to 25 m²*
- *Cover sheet in fireproof fabric (premium polyester mehler 200g/m²) certified waterproof and with automatic tensioning.*
- *Standard height: 280cm*
- *Stainless steel bolts*
